RICOH Interactive Whiteboard

Card Authentication

Secure access can be assured using your badge/card authentication.

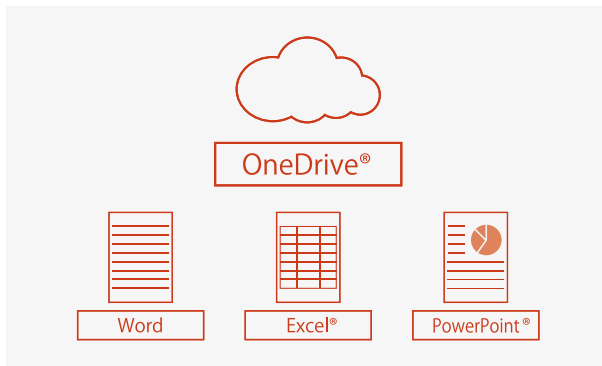

Outlook Scheduler Integration

Meeting attendees and files can be retrieved from Outlook calendar when logged in, so the meeting can get started immediately and efficiently without any struggle.

OneDrive for Business Integration

Meeting files such as Excel or PowerPoint can be retrieved from OneDrive and saved as PDF. Any last minutes change can be made and saved on OneDrive, then retrieve the latest files during the meeting.

Outlook Email Integration

All attendees retrieved from Outlook calendar is automatically set as distribution list, so you just need to press a button to share meeting notes after the meeting.
